

Tour de Cure Partnerships Coordinator

Why you will love your role

The Tour de Cure team creates rich partnerships with organisations that love to inspire their staff, customers and community to cure cancer through engaging experiences. Along with our Tour de Cure family, we have raised over \$40M, made 24 research breakthroughs and spread our prevention message to over 100,000 Australian school kids.

You have the opportunity to play a pivotal role in the corporate partnerships team while learning and experiencing partnership management with some of Australia's most generous organisations. Your support will ensure that the day to day delivery of the corporate service program is on time by managing partner expectations and the online sponsorship management portal. This will include production of branding collateral and digital story telling.

Our Peter Mac and Signature Tour events is where you will fine tune your craft in leading the sponsorship process from planning to executing on event and post reporting. You will develop a community partnerships program that enables our participants to maximise fundraising and introduce Tour de Cure to more businesses.

What will motivate you every day

- Delivering best in class corporate service to Tour de Cure partners and their employees.
- Keep the corporate partnerships team moving through managing the partnership deliverable platform.
- Develop a sustainable community partnerships program and deliver it across all events to support our event participants in their fundraising activities.
- Work with the passionate activations team who will help you bring properties to life and insure that the brand is correctly represented on event.
- Evaluate and evolve our existing sponsorship properties so that they maintain relevance in the market.
- Engage with our partners through the corporate hospitality program
- Manage the end to end relationships with allocated key corporate partners including VIK partners.

What you will bring to the team

- Bachelor degree in Business or equivalent experience in sponsorship
- Experience in managing sponsorship properties
- Understanding of how the small things can make the difference
- Team player with a "Can do attitude"
- Hunger to learn and grow professionally
- Project management skills and attention to digital

Other nice bits

- Working in an empowered environment
- Purpose driven workplace
- Salary packaging
- Immediately embraced into a passionate community
- Play a role in finding a cure for cancer
