Heart Rate - Whats your maximum?

220 minus your age = Max Heart rate

ie at 50 years old. Max heart rate is (220 - 50 = 170) beats per minute

Effort is 170 x 80% = avg of 136 beats per minute.

Key	
Flats (Cardio)	A flat ride e.g. Beach RD at reasonable pace 25 - 27km/hr average (high cadenceSpinning tempo) - Option Zwift Flat course
Hills (Strength)	Kew Blvd or Rolling Hills or Optional Zwift Hill.....A HILLS RIDE
Skills & Etiquette	Bunch riding technique, pace lining - peloton training.
Long Ride (Endurance)	A challenging ride at moderate pace. Use this ride to also get used to eating whilst riding. Focus on low GI energy sources in first half ride (e.g. banana, protein bar) and high GI sources in second half ride (e.g. gels). Take both energy drink and water and get your stomach used to mixing the various drinks / food items. Ride suggestions: Mt Eliza Return 80km * 100-120km -Mt Martha or Dandenong Loop *120-140KM - Arthurs Seat/Redhill Return
Zwift	Zwift Group ride. 8:10PM Every Thursday. 4 laps - 2xLaps at 2.5W/kg 1xLap at 3.0W/kg, Final lap Open (either roll around/cool down or 5min all out effort)
Rest	Rest days are important. You can do a recovery / coffee ride if you are keen to 'actively recover' (like the pros) be on the bike but take it easy (think Grandma easy) - Indoor training, keep the fans OFF and keep your work effort low enough so you don't sweat (too much)
General	Flex the days to suit your lifestyle but make sure you aim to do these 3-4 sessions a week. If you can't get out on the road, do the session on an indoor trainer (best suit your "flats" session) or jump on the bike in the gym. The Thursday skills sessions on are not mandatory but highly recommended as they will get your bunch riding skills up to speed.

TIPS & TRICKS
Maintain your bike - lube chain regularly, service every 2000km, check tyre tread, replace before multiple flats
Check your tyre pressure daily - should be 100 - 110psi
Maintain your body - sleep & eat well + Massage
Recognise your away time from your family. Thank them for supporting your training program
If you're feeling tired & run down - cold pool, massage, relax
Remember kids are going thru chemo and all you need to do is ride
